About Us:

Rajat Yadav(right)
CEO

Innovate Designs is a venture by two Civil Engineering students of IIT MADRAS.

We provide best in class Digital Presentation(3-D Rendering) Services.

Don't doubt us by thinking that we are new, our talent and work will speak for that. We will give you renderings of quality and precision never seen before by you.

Being new in the field, we are putting insane efforts to establish ourselves in the market.

And with our energy and talent, we will work towards making your experience with us a memorable one.

LOOKING FORWARD TO GIVING YOU SERVICES.....

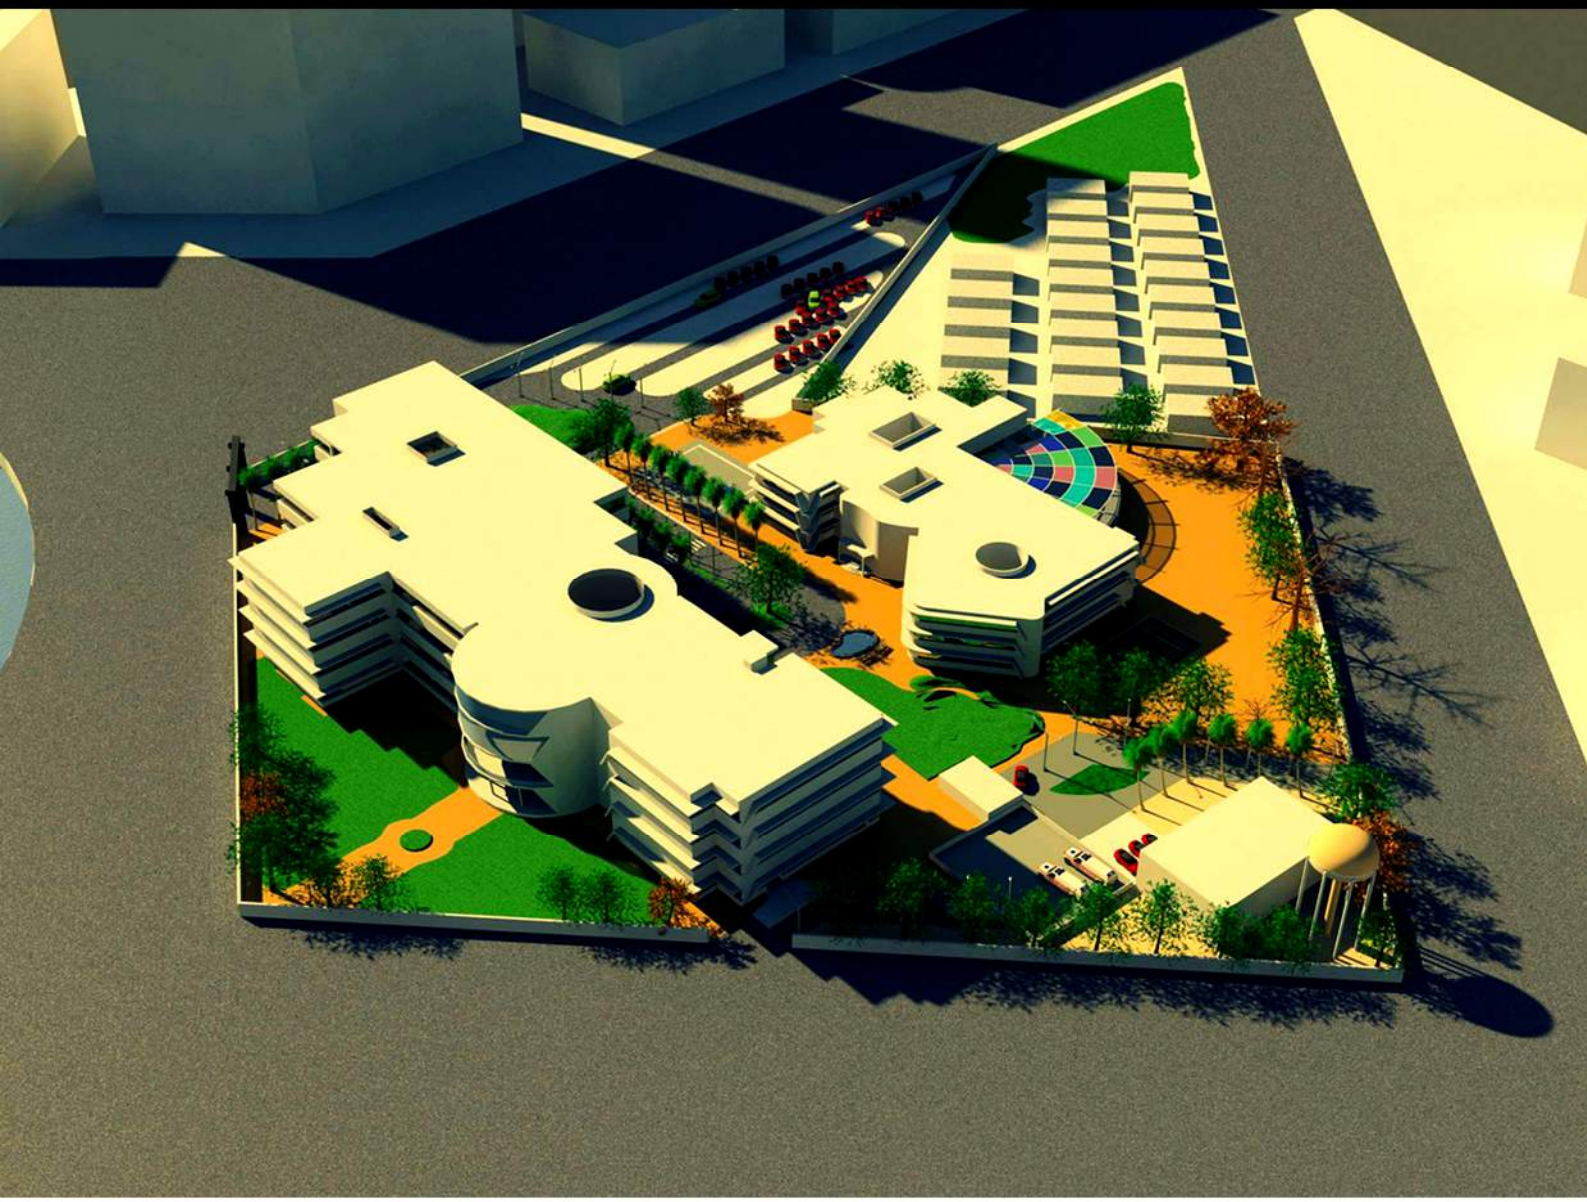
INNOVATE DESIGNS

We have team of 5 members from Civil Engineering and Architecture Branch of IIT Madras and MANIT.

Being from the construction field, we understand your needs better than someone who teaches in coachings or has a mere animation diploma.

So we will do it fast and precise for you.

INNOVATE DESIGNS



We use the latest I-Ray and V-Ray Rendering Engines to make it look realistic

Our entire team takes care of each aspect of the rendering from Lighting to Texture control.

INNOVATE DESIGNS

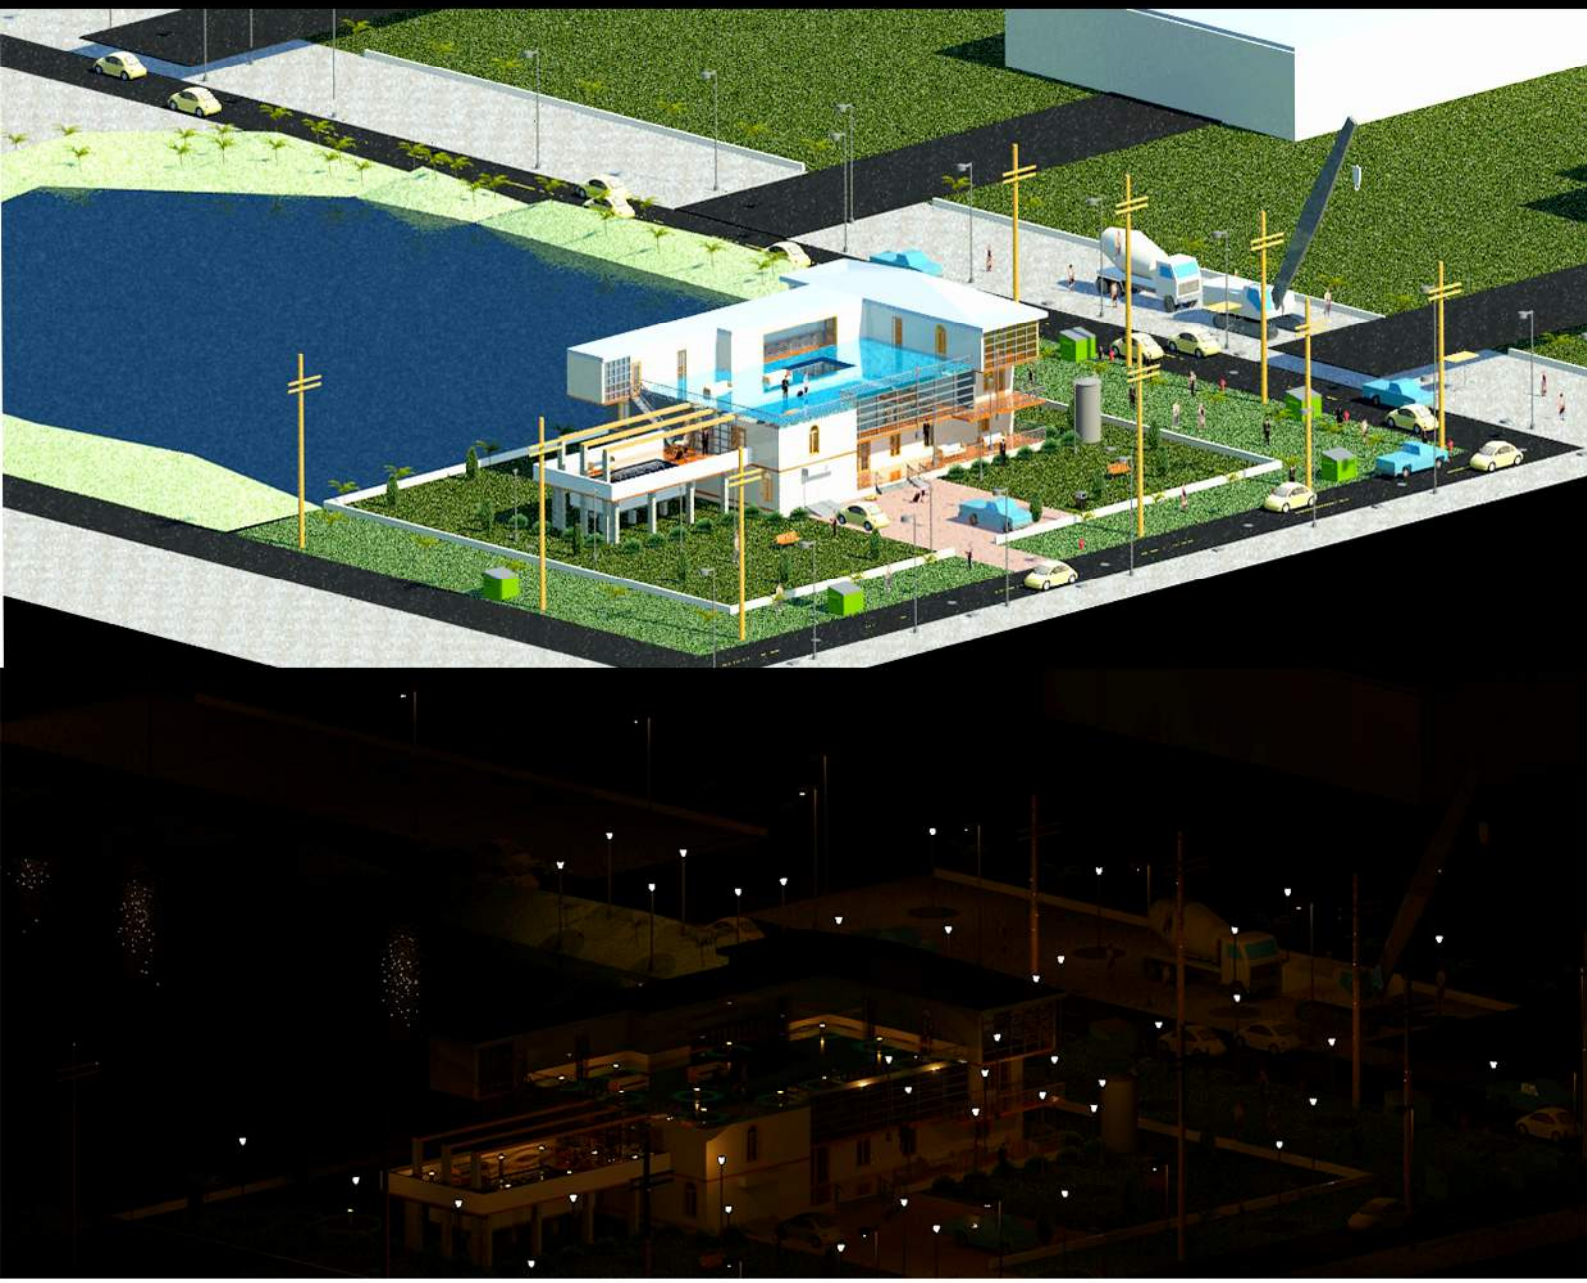
REAL TIME TEXTURING

This means that we can create and apply any material texture in a model, even if its not available in the software!!!!

Wanted to show some special marble as floor material????

Well don’t worry we will create it digitally and precisele.

INNOVATE DESIGNS



We do CUSTOM MODELLING and have a collection of 10,000 LIBRARY ITEMS.

This ensures that we can make the rendering look more realistic and our ready collection will ensure faster job completion.
